

Department
of Health &
Social Care

From Maria Caulfield MP
Parliamentary Undersecretary for Patient Safety and Primary Care

4 July 2022

Dear Jeremy and William,

PHSO Report: Unlocking Solutions in Imaging

I am writing with regard to the Department's response to recommendation 4 of the above report published in July 2021: "4. DHSC and NHSEI should write to the Health and Social Care Select Committee and the Public Administration and Constitutional Affairs Committee by the end of March 2022. They should provide an update on progress in implementing these recommendations and include input from the Academy of Medical Royal Colleges."

NHS England and NHS Improvement (NHSEI) wrote to the Public Administration and Constitutional Affairs Committee and the Health and Social Care Committee on 10 May 2022 setting out their response to this recommendation.

Officials in the Department of Health and Social Care contributed to NHSEI's letter and therefore I would like to confirm that we agree with the response given.

Yours sincerely,

MARIA CAULFIELD MP

**PARLIAMENTARY UNDER SECRETARY OF STATE
FOR PRIMARY CARE AND PATIENT SAFETY**
